Objective

Entry-level full-stack developer seeking to leverage 8+ years of programming experience to deliver high-quality, scalable front-end and back-end solutions, while contributing to innovative projects and advancing technical expertise.

Professional Summary

Versatile and self-driven developer with a strong foundation in programming, web development, and digital media. Skilled in combining logic, creativity, and design to create complete solutions. Experienced in collaborating with international teams, providing technical feedback, and adapting to emerging technologies.

Technical Skills

- **Programming Languages:** Python, JavaScript, C#, C++, PHP, Java, MySQL, Docker
- **Web Development:** HTML, CSS, JavaScript, WordPress
- **Frameworks & Libraries:** React, Node.js, Django
- **Version Control:** Git, GitHub
- **Design & Media:** Adobe Photoshop, Adobe Premiere, Figma, video & image editing
- **AI & Data:** Language model behavior analysis, response review, technical feedback

- **Languages:** English (C2 – Fluent), French (B1 – Intermediate), Spanish (A2 – Basic)

Professional Experience

Scale AI – Data Quality Contributor (Remote)

May 2024 – Present

- Evaluate and correct AI-generated responses for accuracy, coherence, and compliance.
- Provide detailed technical feedback in English to engineering and supervisory teams.
- Analyze linguistic and computational patterns, staying current with NLP and machine learning concepts.

LE Capital – Web Designer / Social Media Manager

2021 – 2024

- Designed and maintained institutional websites using HTML, CSS, JavaScript, and WordPress.
- Created visual assets for social media campaigns to enhance brand visibility.
- Implemented technical improvements to internal systems to optimize performance.

Education

Federal University of ABC (UFABC) – São Paulo, Brazil (*In Progress*)

- Bachelor's in Science and Technology
- Bachelor's in Computer Science (expected graduation TBD)
- Coursework: Logic, Mathematics, Algorithms, Data Structures, Programming

Braemar College – Toronto, Canada (2018)

- English Proficiency Certificate – Immersive exchange focused on fluency and cultural integration.

Alliance Française – São Paulo, Brazil (2018)

- Intermediate French Certificate – Grammar, vocabulary, and conversational skills.

Skill Idiomias – São Paulo, Brazil (2017)

- Advanced English Certificate (C2) – Reading, listening, and conversational proficiency.

Additional Highlights

- 8+ years of programming experience across multiple languages and frameworks.
- Self-taught with a strong passion for technology, innovation, and digital entrepreneurship.
- Blend of technical expertise and creative problem-solving in design and multimedia projects.
